EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification

The following paragraph has been inserted at page 1, line 2:

-- This application is a continuation of Application Serial No. 09/305,811, now issued as U.S. Patent No. 6,331,158.--

In the Claims

In claim 27, line 1: --blade-- has been inserted after "retractor".

Art Unit: 3625

Examiner's Comment

The amendment to the specification has been made to ensure entry of this amendment previously presented by Applicant in the Amendment filed March 28, 2002. The file in the Patent Office had not been marked showing entry of this amendment.

The amendment to claim 27 corrects an obvious omission of the word "blade" in this claim. Applicant's attention is directed to parent claim 26, which sets forth a "retractor blade".
